

Summer scholar activity

Learning doesn't have to end when summer comes. It's a great time to expand and develop academic skills. Think of ways to celebrate, get curious, expand knowledge, and improve habits using this activity. Be a summer scholar!

On a separate sheet of paper, take these five steps to end the semester strong and be on your way to an amazing summer:

5	Celebrate your learning. List five things to celebrate about what you learned this year.	
4	Explore new interests. List four interests you'd like to explore this summer.	
3	Read for fun or to learn something new. List three books you'd like to read.	
2	Improve your existing skills and habits. List two things you'd like to improve.	
1	Plan for the future. Set one goal you'd like to work towards over the summer.	

Parents, share your kid's celebrations and summer learning with Prepared Parents on social media and at info@preparedforsuccess.org.
